

This asteroid poses no threat to Earth.

Asteroid Characteristics:

Estimated Size (m + size comparison)	
Velocity (relative)	
Material (if known)	
Minimum Distance (Km/LD)	
Absolute Magnitude (H Mag)	
Who first observed it? When was it first observed?	

IMAGE:

Miscellaneous Checklist:

Y / N

Will it be viewable by the naked eye?
Will it be viewable by amateur telescope?
Does it pose a threat?
